

58th International Days of Clinical Endocrinology H.P. Klotz
June 11-12 2015, Paris

ACQUIREMENTS IN PARATHYROID DISEASES

Thursday, June 10, 2015

8: 30 Registration

9: 00 Introduction

Jean-Louis Wémeau (Lille)

9 h 05 **Lecture**

The calcium receptor and its involvement in parathyroid pathology

Rajesh Thakker (Oxford)

Session 1 - HYPOPARATHYROIDISM

9 h 45 Spontaneous Hypoparathyroidism: causes and outcome

Michael Mannstadt (Boston)

10.15 Autoimmune Hypoparathyroidism

Antony Weetman (Sheffield)

10 h 15 - 10 h 45 Coffee break - Visit of the posters

Session 2 - PSEUDOHYPOPARATHYROIDISM

10 h 45-11 h 15 Pseudohypoparathyroidism: varieties, pathogenesis, and genetic determination

Harald Jüppner (Boston)

11 h 15-11 h 45 Multiple Hormonal Resistances: diagnosis, evaluation and therapy

Agnes Linglart (Paris)

11 h 45-12 h 15 Pseudohypoparathyroidism type 1 B in 2015

Giovana Mantovani (Milan)

12.15-12.35 Paternal GNAS mutations: which phenotypes? what genetic counseling?

Marie-Laure Kottler (Caen)

12 h 35-12 h 55 Acrodysostosis: a new form of pseudohypoparathyroidism

Caroline Silve (Paris)

13:00-14: 30: Lunch

14 h 30-15 h 30 ROUND TABLE 1: Treatment and monitoring of hypo- and pseudohypoparathyroidism

Moderator: Agnes Linglart

Treatment with rhPTH in children: Anya Rothenbühler (Kremlin-Bicêtre)

The study REPLACE in adults and the calcilytics: Pascal Houillier (Paris)

Treatment of ectopic ossifications: Vincent Guigonis (Limoges)

Monitoring of hypo- and pseudohypoparathyroidism in adults: Jean-Louis Wémeau (Lille)

15 h 30-16 h Coffee break - Visit of the posters

Session 3 PRIMARY HYPERPARATHYROIDISM: Clinical Presentation

16 h - 16 h 30 Epidemiology, pathogenesis of primary hyperparathyroidism: current data

Claudio Marcocci (Pisa)

16 h 30 – 17h Primary hyperparathyroidism and nephrolithiasis

Peter Vestergaard (Aarhus-DK)

17h -17h 30 Asymptomatic and mild primary hyperparathyroidism

David Macfarlane (Inverness-UK)

Friday, June 12

Session 4 - PRIMARY HYPERPARATHYROIDISM: Diagnosis

9: 00 - 9:30 Problems with the PTH assays Étienne Cavalier (Liège)

9:30-10: 00 How to manage an isolated increase of PTH?

Jean-Claude Souberbielle (Paris)

10: 00 - 10:30 Genetic evaluation in primary hyperparathyroidism: what investigation? for which patients?

Lionel Groussin (Paris)

10 h 30 - 11 h Coffee break - Visit of posters

11: 00 - 11:45 New methods for Parathyroid Imaging

Scintigraphy

John Prior (Lausanne)

Ultrasound, CT, MRI

Samuel Boury (Lille)

Session 5 - PRIMARY HYPERPARATHYROIDISM: Treatment

11 h 15 - 11 h 45 Primary hyperparathyroidism and vitamin D deficiency

Fritz-Line Céphise Velayoudom (Pointe-à-Pitre)

11 h 45-12 h 15 Pitfalls in parathyroid surgery

Michel Mourad (Brussels)

12.15 - 12.45 Real benefits and place of the calcimimetics in primary hyperparathyroidism

René Rizzoli (Geneva)

12 h 45 - 14 h 15: Lunch

Session 6 - PRIMARY HYPERPARATHYROIDISM: Parathyroid cancer

14 h 15 - 15 h Parathyroid Carcinomas

-Criteria, classification, evaluation Christine Do Cao (Lille), Martine Patey (Reims)

-Therapeutic support Daniela Betea, Albert Beckers (Liège)

15 h - 16 h ROUND TABLE Parathyroid and Pregnancy

Moderator: Philippe Chanson (Paris)

Hypoparathyroidism and pregnancy: Catherine Bauters (Lille)

Hyperparathyroidism and pregnancy: Peter Kamenicky (Kremlin-Bicêtre)

Hypercalcemia family hypocalciuric. Severe neonatal hyperparathyroidism: Jean-Pierre Salles (Toulouse)
